

Dear Healthy Living Champion,

As you may be aware, in Cornwall, Pharmacies will be working on Public Health Campaigns, local to the county, over the next 2 years.

This is part of the 'Cornwall Public Health Plus' project, funded by Public Health Cornwall and supported by Community Pharmacy Cornwall (formerly known as Cornwall & Isles of Scilly Local Pharmaceutical Committee (LPC)).

The fourth campaign is around Sexual Health and this will be running across August and September.

This campaign is similar to the first Sexual Health Campaign and incorporates the same key themes, with two important additions: the introduction of the Pharmacy Contraception Service and the changes to the Emergency Contraception Patient Group Direction in Cornwall. These changes ensure that all women of childbearing age can access emergency contraception for free.

Enclosed in this envelope you will find the following:

2 x Posters

These posters signpost patients to speak to you, the Pharmacy team or to Brook (Cornwall's free sexual health and contraception services provider).

Please put these posters on display in your Pharmacy.

Data Collection Tally Chart

To record how many consultations or encounters you have with patients relating to Sexual Health, this includes all advice given by any member of the Pharmacy team.

QR Code

We are working with Public Health Cornwall to try and obtain data regarding awareness of Brook. Please can you ask patients to scan the QR code and complete the **anonymous** questionnaire. (It could be done whilst they are waiting to speak to a member of the pharmacy team or after the conversation.)

Please relay this information to the rest of the pharmacy team.

Data submission for this campaign will go live at the **end of September**, you can claim £250.00 via PharmOutcomes when you upload your data.
