IPA: Becky Emery, Rosie McDermott (late arrival)

Independents: Ian Bloxham

Officers: Nick Kaye, Drew Creek

Apologies: None

We currently have 1 vacancy

---

Meeting Start 09:54

NC welcomed members

### **Minutes**

Change Aim to IPA, BE rather than RE. DC to make changes.

DC highlighted AGM votes

NC proposed minutes BE seconded, unanimous vote in favour.

### **Officers Update**

Drew updated the committee on the state of relationship with ICB being improved since last meeting and we now sit back under the meds op team, lots of progress in a short space of time. LPC/CPE conference was attended, nothing new really, Stephen Kinnock MP didn't attend in person as planned. Feels like the model of these conferences needs to be changed to less telling and more collaboration. DC went for breakfast with the local MP Noah Law in Parliament to talk about CP financial challenge and he was keen to support DC connected him with NPA and CPE. Noah Law MP has put in an urgent question into the ballot awaiting the outcome. Discussions around purchasing capacity in CP by ICB. Specialist meds service review currently. NK talked about national work engaging cross organisation except IPA who did not engage. Discussion around using the provider company for EHC if local procurement issues could not be solved. Local research opportunities available for acne, NK/DC to explore. NK talked about a parliamentary cross party meeting NK took Chris Reed CMO ICB.

NK gave overview of current NPA position on collective action, advising its membership to contact ICB asking what its core hours.

### **Finance**

IB gave overview of accounts broadly on target, some tidying up to do on savings income and VAT.

DC gave overview of VAT return reimbursement.

NC propose we explore alternate current accounts with multiple account access, CI seconded, unanimously in favour.

DC and IB to propose a budget for Feb 25 meeting.

## **Pharmacy Strategy**

NK gave the context of the current picture and thinking of the ICB moving some money from secondary to primary care.

## **AOB**

Contraception training offered by CPPE

Sponsor Chiesi 12:45
